POS PC

Turns PC & Tablet into a POS system

PREMIUM SOFTWARE

The POS software is freely configurable and flexible. It speeds up and simplifies work processes and is adapted to your individual requirements.

FOR NUMEROUS INDUSTRIES

POS PC is just as suitable for the trade as it is for service providers, bakeries, restaurants, caterers, hotels, ice cream parlours, kiosks, cleaners, beverage shops and many more.

COMPLETE SOLUTION

POS PC provides interfaces to bakery, financial accounting, hotel, HR managment, forecast, reporting and ERP software. Printers, scanners, card terminals, operator locks and other hardware is supported.

Your benefits

▶ **Customizable user interface**
Tailor-made solutions

▶ **Easy operation**
Short training time & minimum error rate

▶ **Effective controlling**
Reports & analyses

▶ **Safe**
Perfect protection against viruses and manipulation

POS PC

FLEXIBLE POS SOFTWARE

POS PC makes the Vectron POS software available to Windows tablets and PC. Software updates are offered in the event of legislative changes, such as new fiscal requirements.
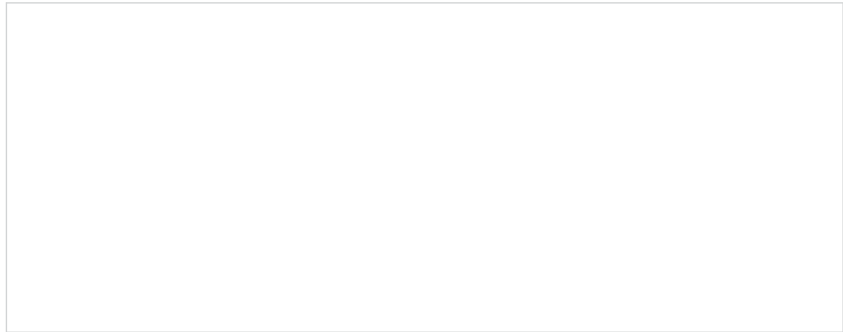

USEFUL FUNCTIONS

The software has many useful functions that optimize workflows: Time-controlled price changes, order and inventory recording, info texts, time recording, deposit and voucher system, message dispatch, customer management, GC split and move, graphic table maps and many more.

CLEVER MYVECTRON SERVICES

Use the advantages of digitization: Stay competitive with our cloud-based services. Reservation and customer loyalty tools integrated into the POS system enable you to run individual campaigns with minimum effort. With our real-time reporting, you always have an overview of your most important key figures.

OUTSTANDING SERVICE

Vectron products are distributed via a close-knit network of specialist trade partners. This guarantees the provision of expert advice, tailor-made solutions and reliable 24/7 service* on-site or via our hotline. Remote maintenance options round off the range of services.
